FRIGHTFUL CASE OF A COLORED FRIGHTFUL CASE OF A COLORED MAN.

I contracted a fearful case of blood poison in 1888. I was treated by some of the best physicians in Alanta. They used the old temedies of Mercury and Potash, which brought on rheumatian and impaired my digestive organs. Every joint in me was swollen and full of pain. I was in a horrible condition. When I had been given up to die my physicians, who had seen the workings of the medicine in other cases. Hought it would be a spiendid time to test the virtues of Swifts Specific. When I commenced taking S. S. S. the physician said I could not live two weeks under the ordinary treatment. He commenced to give me the medicine strictly according to directions, which I continued for several months. I took nothing else, and commenced to improve from the first, Occasionally I would have a backset froza imprudence. Soon the rheumatism left me, my appetite became all right, and the ulcers, which the doctor said were the most frightful he had ever seen, began to head and by the lat of October, 1884, I was a well man again. I am stronger now than I care was before, and weigh more. I have not failed to report for duty since that time, being engaged in the oil-warehouse of Chess-Carley Company. I have been, and still am doing some of the hardest work any man ever did, and am ready to answer any question that may be asked concerning this case. Swift's Specific has saved me from an early grave.

Lem McClendon has been in the employ of the Chess-Carley Company for some years, and I know the above statements to be true. At the time he began taking Swift's Specific he was in a horrible condition, and at my solicitation his treatment with B. S. B. was undertaken by a physician after several others had declared his case to be hopelessly incurable. He took nothing but S. S. S., and has been as sound as a new dollar for several months. I regard his cure almost miraculous.
